

SCANDINAVIAN INSPIRED. BRITISH DESIGN

THE PROFESSIONAL ROUND BRUSH COLLECTION

PRO STYLER

Control in every detail.

Created for stylists who value precise handling. EMME Pro Styler combines V-shaped natural boar and double ionic nylon bristles with a ceramic-coated solid thermal barrel.

A faceted grip, carved neck grooves and pointed sectioning tail support control from the first section to the final turn.

01

V-SHAPED BRISTLING

Natural boar and double ionic nylon work together to engage the section and hold hair against the barrel for controlled tension.

02

CERAMIC THERMAL BARREL

A solid thermal barrel with a ceramic coating. Use with a hairdryer to build shape, bend and volume through each section.

03

GRIP WITH PURPOSE

A lightweight, faceted solid-wood handle and carved neck grooves support your grip as you turn and guide the brush.

04

PRECISION SECTIONING TAIL

The pointed tail helps create clean sections and precise partings, keeping your styling work controlled from the start.

FOUR SIZES. ONE PROFESSIONAL SERIES.

Choose by hair length, section and desired finish.

THE DETAIL THAT GRIPS

Natural boar + double ionic nylon in a V-shaped arrangement.

MODEL	BARREL	STYLING GUIDE
EP0114	14 mm	Short hair and fringes Detailed work and definition
EP0122	22.2 mm	Short to medium lengths Controlled shape and bend
EP0132	32 mm	Medium lengths Body and movement
